Fès, Morocco

Profile

Mechanical Engineering student with a strong interest in **mechanical design and aerospace engineering**. Certified **SOLIDWORKS Professional (CSWP)** with knowledge of **3D parametric modeling, assembly design, CATIA V5, 3DEXPERIENCE and Abaqus/Simulia**. Seeking an **initiation internship** to discover industrial engineering practices and develop hands-on experience in mechanical design, simulation, manufacturing and aerospace applications.

Education

Mechanical Engineering <i>FST USMBA Fès, Morocco</i>	<i>2026 – Present</i>
DEUST – Mechanical Engineering and Industrial Systems <i>FST USMBA Fès, Morocco</i>	<i>2024 – 2026</i>

Certifications

Certified SOLIDWORKS Professional (CSWP)

Dassault Systèmes – SOLIDWORKS

- Advanced parametric mechanical design
- 3D part modeling and design intent
- Mechanical assemblies and design modifications

Technical Skills

CAD / Mechanical Design	SOLIDWORKS , CATIA V5, 3DEXPERIENCE, 3D Parametric Modeling, Part Design, Assembly Design, Engineering Drawings
Simulation / CAE	Abaqus/Simulia , Finite Element Analysis (FEA) fundamentals, Structural Analysis
Mechanical Engineering	Engineering Mechanics, Machine Design, Materials, Mechanical Systems, Technical Drawing
Aerospace	Aircraft Design Concepts, Aerospace Structures, Mechanical Components, 3D Modeling and Assembly Design
Engineering Programming Languages	Design Intent, Technical Documentation, Problem Solving, Design Development Python, C French – Fluent — English – B2 (Upper-Intermediate)

Relevant Coursework

Engineering Mechanics	Materials Science
Machine Design	Technical Drawing
Mathematics	Physics
Mechanical Systems	CAD / Computer-Aided Design
Numerical Methods	Finite Element Analysis Fundamentals

Professional Strengths

- Strong foundation in mechanical engineering
- Advanced SOLIDWORKS skills validated by CSWP certification
- Interest in CAD, simulation and mechanical design
- Analytical and problem-solving mindset
- Attention to detail and technical rigor
- Fast learner and highly motivated
- Strong interest in aerospace engineering
- Ability to work independently and collaboratively
